

11/28/16

**Intel Oregon *FIRST*® LEGO® League
2016 Qualifying Tournaments**

**Intel Jones Farm Conference Center
2111 NE 25th Avenue Hillsboro, OR 97124
December 10th & 11th 2016**

Dear Parent/Guardian:

The *FIRST* LEGO League and the Oregon Robotics Tournament and Outreach Program (ORTOP) are pleased to invite you to the Intel Oregon *FIRST* LEGO League 2016 Qualifying Tournament, to be held at Intel Jones Farm Conference Center in Hillsboro. For the past 8 to 12 weeks, your youngster has been a member of an engineering team designing, building and programming a LEGO robot to meet the ANIMAL ALLIES *FIRST* LEGO League Challenge. We hope you will be there to cheer on your youngster's team. The purpose of this letter is to let you know what to expect at the tournament.

Your child's team is:

TEAM # 22337 **TEAM NAME** Orengo N.A.R.W.H.A.Ls.

COACH NAME David Kolet-Tassara a.k.a. Coach KT

DATE OF TOURNAMENT December 10th **LOCATION OF TOURNAMENT** Intel, Jones Farm

Electronic Team Member Consent & Release: Please Complete As Soon As Possible

You can now sign your child's 2016-2017 Youth Team Member Form, required for participation in all official *FIRST* events, online! Go to <http://www.firstinspires.org/resource-library/youth-team-member-consent-and-release-form> to complete this process. You will need your child's *FIRST*® LEGO® League team number. If you do not have an email address, or internet access, please tell your coach and they can provide paper forms for you to complete. Return them to your coach before the tournament, these forms are required before your child can participate in a *FIRST*® LEGO® League event.

What is an *FIRST* LEGO League Qualifying Tournament?

This is the 16th year for the *FIRST* LEGO League Oregon program! This year we have about 450 teams participating. Our success has created the need for 24 small tournaments prior to the Championship tournaments. We call these "Qualifying Tournaments." About 27% of teams from each qualifying tournament will advance to one of the Intel Oregon *FIRST* LEGO League 2016 Championship Tournaments presented by *Rockwell Collins* being held on January 14th and 15th, 2016, at Liberty High School in Hillsboro, Oregon.

Who can come to the event?

The public is welcome to attend the tournament and watch the robot game competition. Please invite friends, family, teachers and your team's school principal. No tickets are required to watch the competition in the auditorium.

Team members, coaches, mentors, and tournament volunteers will be issued ID Tags and wristbands when the team checks in at the tournament to enter the pit area. Only those with ID tags and wristbands will be allowed to enter the pit area during the tournament.

How do I get there?

[Intel: Jones Farm](#)

2111 Northeast 25th Avenue, Hillsboro, OR 97124

Where do I park?

Parking is in front of Intel Jones Farm Conference Center. Please respect rules on posted signage.

When and where will my youngster's team compete?

Your youngster's team will compete in the Robot Performance Competition in Intel Jones Farm Conference Center auditorium. In this competition, their robot negotiates the ANIMAL ALLIES Challenge Field -- the same competition table you may have seen at team practice sessions. Your child's coach will be provided with your child's team schedule of events. Each team will have three Robot Performance rounds on the Challenge

tables. Each round is 2 ½ minutes long. Knowing your child's team number will help you cheer on the team and know their schedule.

In fairness to all of the teams, the detailed competition schedule will not be released until the morning of the tournament. Competition schedules will be posted and handed out as flyers. If you know your youngster's team number you can easily find out when their competition rounds are scheduled. Competition begins at 9:30 am and ends about 3:00 pm.

How does the judging process work?

In addition to the Robot Performance Competition, each team will have three 10-minute interviews with panels of judges. These interviews will allow the judges to ask questions about the Project, Core Values, and Robot Design aspects of preparing for the tournament. Due to space limitations and to allow the teams to do their best, guests will not be permitted into the Robot Design or Core Values judging areas. Parents are permitted to view the Project judging session in the designated conference room.

Can I take pictures of the competition?

Yes! Flash can be distracting so please do not use your flash while the team is at the competition table.

Can I stay with my youngster's team?

No. The teams will be using the Pit area as a preparation and practice area. The Pit area will be limited to team members, coaches, mentors, and tournament staff. It will be accessible only to those wearing team ID tags and wristbands.

Where can guests eat lunch?

There is no food service on site. There are several choices in the neighborhood. Please plan ahead. Food is allowed in the auditorium.

Do I need to be there all day?

No. It's a long day. Opening ceremonies will start at 9:00 am. Closing ceremonies begin at about 3:00 pm. Check the schedule to find out when your youngster's team is competing and then come and go as you please. While parents are free to come and go, we expect teams and coaches to stay inside the tournament site for the entire day.

How can I help?

This year we are still needing volunteers for Sunday, December 11th. We assure you that volunteering will not prevent you from seeing your youngster's team compete. We especially need parents willing to stay and help load out the equipment after the event is over. If you can volunteer, please sign up at https://my.firstinspires.org/FIRSTPortal/Login/VIMS_login.aspx at least one week prior to the tournament. Parents should not volunteer to be judges, referees, scorekeepers or scorekeeper runners.

Final Thoughts

If you have a young guest with you, make sure he or she stays with you at all times. Look out for teams carrying their robots to and from competition areas. Please be polite and cheer for all of the teams participating. More than a competition, this is a fun, educational, learning experience.

Your youngster's coach should have *FIRST* LEGO League Core Values. Ask your youngster to tell you about his/her involvement on the team and how the team plans to exhibit *FIRST* LEGO League Core Values at the tournament.

We look forward to seeing you at the tournament. Please route any questions through your youngster's coach.

Sincerely,

Aaryn Curl
